Task on vpc peering

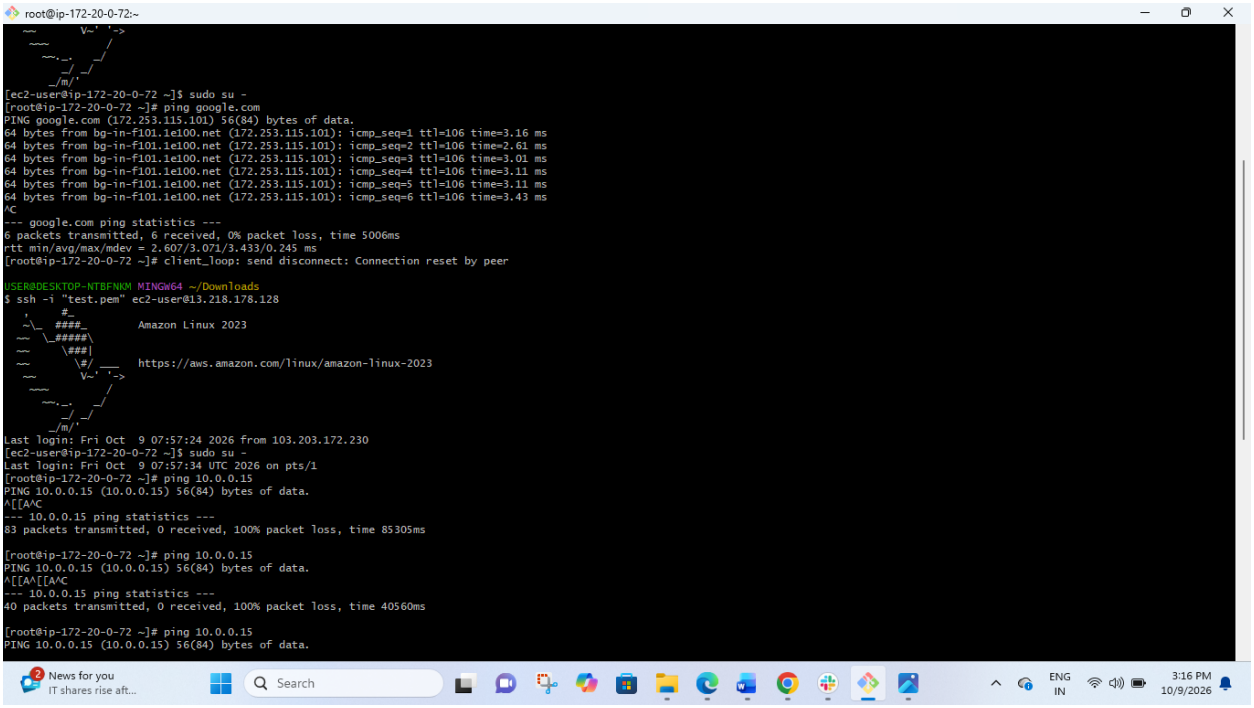

1. Create one VPC, with 1 public subnet and 1 private subnet.

2. Enable VPC peering for cross-region.

Endpoints
Your VPC peering connection (pcx-09c004874d4dd7ff3) has been established.
To send and receive traffic across this VPC peering connection, you must add a route to the peered VPC in one or more of your VPC route tables.
Modify my route tables now
